

Child Day Care

To qualify for childcare assistance:

- The child must be the participant's biological or legally adopted child
- In cases where the child is a grandchild, niece, nephew, or other dependent, official legal documentation must be provided showing that the child is under the participant's legal guardianship
- The childcare provider must be a licensed or verified program with an official website or verifiable business presence

Provider Verification

All childcare providers must be reviewed and approved before assistance can be provided. This includes:

- Confirming the provider is an established and legitimate childcare program
- Verifying licensing or official registration when applicable
- Reviewing the provider's official website or documentation

Important Notes

- Assistance is only available for approved childcare services
- Payments or support will not be issued without prior verification of the provider
- The program reserves the right to approve or deny childcare support based on eligibility and documentation provided
